Dependable Power from Cheapest Fuel

Here is an engine that will operate for long periods, using as fuel any of the cheaper grades of distillate, fuel, or crude oils, assuring the most dependable power and show an immense saving in the power costs of pumping and compressor out-fits where 15, 20, 25 or 30 H.P. is required.

It maintains lowest fuel consumption. As near completely automatically lubricated as is possible. No water injected into combustion chamber, thereby combustion chainly, thereby maintaining low temperature and better lubrication of cylinder and picton. Perfect crank compression at all times. Quick starting. Sensitive governor, close, accurate speed reg-ulation. Extra large bearing surfaces tend for long service and low main-tenance cost. Simplicity of parts. Can be operated for long non-stop

runs with minimum attention. FREE ENGINE BOOKLET

Why Japanese 41/4 Yield More Than Ten Per Cent

Anywhere

VEN though your home lies far L beyond city sewer lines, you can enjoy the conveniences of sewer service if you have running water and a Sanisep System. A spare room or large closet can

be fitted up as a modern bathroom. A kitchen sink with drain will lighten housework. Sanisep takes care of all sewage, liquid and solid. Once installed, Sanisep requires no chemicals or other attention.

t is entirely self-operating. Sanisep is moderately priced— easily within your means, "How it works" is fully described in an inter-esting catalog, which will be sent to you on request.

· +- Dry 40 Barre 10 and 15 Barrels • 40Barre 40 Good well drilled a year ago. Spoiled in shooting.

is a chance to get into the oil business on about a ground floor basis can see by describing the above pool map that if this is an oil field a il must come over our 123 agree.

This issue is located exactly six unless east of the famous Stone Bluff pool that produced THIREE THOUSAND BARBLE, with One so sere teams in the Stone Bluff pool paid for chilling seven wells and paid dividends of \$256. We have four offset wells that should be drilled right now, offsetting oil wells. It looks as if most of this lease would be good.

is are 1.600 feet deep with 75 feet of good sand, which is liable to pro-WE WILL DRILL TWO WELLS COMPLETE AND CONNECT THEM TO THE TANK FOR \$1,200 FOR A 1-16 IN STREET IN THE TWO WELLS, and THE 141-ACRE LEASE After the complete of the first two wells the beyon shall pay his share of the expense for future development.

This is as sure a thing as there is in the oil nusiness, as the wells already drilled get much better as they come toward our lease, and the best wells offset our lines, We will split the gamble and sell five interests only. FIRST COMIS. FIRST SENVED.

Present owners are practical oil operators and thoroughly reliable and drilling will start at once. Lease shown by appointment, or if you do not live in Tulas appoint a practical oil man to hispect the lease for you.
